

SAFETY TIPS

AROUND THE HOME

Planning and prevention are the two primary keys to fire safety. You can better protect yourself and those around you by observing a few simple precautions.

PLAN YOUR ESCAPE ROUTES

- Be familiar with your home. Learn the exits. Make sure that you are familiar enough that you can find them in the dark if necessary.
- Plan a place outside of your home for everyone to meet in the event of a fire. That way, you can be sure that everyone gets out.
- Review your plan for escape in the event of a fire with all family members. Re-review it on a regular basis.

PUT MATCHES AND LIGHTERS AWAY

Put matches and lighters away, out of the reach of youngsters.
